1	https://pccoeciil.com/	Give information about Ciil @ PCCOE	Clean website Whitesspaces properly used Text is readable and pictures are clear	Discover button isn't working on home page Buttons for 'ideation', 'pre-incubation',... doesn't work Much information isn't given about Ciil and its dealings Some pages are still under development so they are empty when we go there 404 for one pg They didn't mention they were sector agnoistic	Bad
2	https://web.whatsapp.com/	Messaging	Clean UI DarkTheme Available Secure Easily accessible Temporary Autodownload	Doesn't go full screen hence makes it a bit tedious to use and work No option to have custom background	good

3	https://www.moneycontrol.com/	Provides all the details related to the stock market	Covers every detail related to each and every stock. Consistent use of colors. The navigation section for multiple tabs is good. The user interfaces for all the tabs follow a constant theme.	Ad covers content at some places. A lot of content is provided in one place so less space is available to separate different content. No navigation is available for the home page.	good
4	https://stocksmart.in/	Community bases social media platform for stock market	Content and details related to stocks is brief	Inconsistent position of elements at some places	good
5	https://meet.google.com	Video Conference Platform	Clean UI Good Functionalities Free to use Recording feature Screenshare Good audio and video quality New backgrounds	Can't upload images/videos in chat Can't save chats Can't merge calls Can't split calls	good
